

# MICROCADD INSTITUTE INC.

Autodesk Authorized Training Center – Tesda Registered Training Center.

**Dear Parents, students and clients,**

Warm greetings from Microcadd Institute Inc.

Thank you so much for your patience in waiting for the resumption of classes – Senior High, Technical - Vocational programs, and Short Course for professional. Since March 10, we suspended all classes due to COVID19 Pandemic.

We will resume classes once allowed by IATF. Base from IATF Resolution 47, some classes are likely to resume soon. We will release updates thru our FBs, GCs, email, and Website. Students of short courses, please do not worry, we will contact you thru your cellphones.

Rest assure we will observe the Health & Safety standard of DOH. We are starting to sanitize our premises, and install barriers in our labs. Let us work together to have a safe environment and to end the need to be quarantined.

We look forward for your returned and your continued trust to Microcadd. Wishing you all the best and stay safe.

**Sincerely yours,**

**The Management, Faculty & Staff of Microcadd**
